(AIIA'25)

December 02-03, 2025 Boumerdes, Algeria

Call For Papers

The **International Conference on Artificial Intelligence and Innovative Applications (AIIA'25)** is dedicated to showcasing advancements in AI and exploring its transformative potential across diverse domains. This conference provides a platform for researchers, practitioners, and industry experts to share innovative applications of AI that address real-world challenges and drive societal progress. What sets AIIA'25 apart is its pioneering inclusion of startups, uniquely integrating entrepreneurial innovation into the academic landscape. By fostering collaboration between researchers and startup communities, the conference bridges the gap between theoretical advancements and practical implementations. This novel focus embodies our institution's commitment to supporting startup development while maintaining the highest standards of academic excellence. Organized by the LIMOSE Laboratory and the Department of Computer Science, AIIA'25 will be held at the University of Boumerdes, Algeria, offering an inspiring venue for transformative discussions and collaborations in AI and its innovative applications.

Submission

We invite researchers, scholars, and industrials to submit their papers to AIIA'25, which will be held on December 2-3, 2025. All papers should be written in English and must be original and should not be under consideration for publication in any other journal or conference. The initial submission for review will be limited to eight (08) pages, including references, figures, and tables (in at least 10pt font and 2-column format).

LaTeX and Microsoft Word templates, as well as formatting instructions, are available [online on this website](#).

We welcome submissions in the following categories:

- **Regular research** papers, up to 8 pages in length (including references).
- **Short papers** on early results, up to 4 pages in length (including references), supported, if possible, by empirical evidence.

- **Posters** on introducing new or disruptive ideas that differ from prior published work, up to 2 pages in length (including references).

The [Microsoft CMT service](https://cmt3.research.microsoft.com/AIIA2025) was used for managing the peer-reviewing process for this conference. This service was provided for free by Microsoft and they bore all expenses, including costs for Azure cloud services as well as for software development and support.

Contributions should be submitted electronically as pdf formats via the following link:

Publication: Publication details to follow soon, awaiting publisher confirmation. We are in active communication with the editor, and updates will be provided shortly. Feel free to contact us at aiaa25@univ-boumerdes.dz for any inquiries.

Topics of interest

We invite submissions on, but not limited to, the topics:

Track 1: Fundamental & Applied Research on AI

- ☐ Multimedia, computer vision, and image Processing
- ☐ AI & Multi agent systems
- ☐ Large Language Models: Applications & Challenges
- ☐ Pattern recognition and its applications
- ☐ Deep and machine learning for artificial vision
- ☐ Bioinformatics and medical imaging
- ☐ AI & Bio- inspired systems
- ☐ Motion and tracking algorithms and applications
- ☐ AI & New Frontier in Cybersecurity
- ☐ AI for Cognitive Computing & Natural Language Processing
- ☐ Combinatorial optimization and AI
- ☐ Research on AI & Industrial 5.0

Track 2: Industry Leaders Track: Featuring Established AI Companies

- ☐ Non-destructive inspection and Industrial Quality Control
- ☐ Virtual/augmented reality and simulations
- ☐ IoT, security, games, human behavior understanding, and intelligent vision
- ☐ AI for Agriculture, Education, Environmental Sustainability, Digital Payments, Social Good, and Smart Mobility Solutions

Track 3: Startup Innovation Track: Showcasing Emerging AI Solutions from the Startups

- ☐ AI-based Startup experiences & socio-economic landscape
- ☐ AI in E-Commerce: Startups Driving Online Business Growth
- ☐ AI and the Startup Ecosystem: Challenges and Opportunities
- ☐ AI- Based platforms and tools for Startups
